### **DataCeutics Selected to Implement Enterprise-Wide Electronic Compliance at Canadian Biotech.**

Philadelphia, Pa - DataCeutics, Inc.

DataCeutics announced today that it has been selected to lead an enterprise-wide electronic records regulation compliance project at this major Canadian Biotech. The project includes an analysis of electronic systems usage across all GxP systems and the development and implementation of a remediation strategy that aims to prioritize all electronic systems, identify systems and processes that are at risk, and bring those systems into compliance. The project is expected to take up to two years to complete.

Matt Ferdock, CEO, and Principal Consultant in the Compliance Services division of DataCeutics, said, "DataCeutics has over 15 years' of experience validating GxP systems. This effort will require all of that experience and 100% of our capabilities to successfully finish. It will represent for our customer the next level of evolution in the life sciences industry and bring them into compliance with major US, Canadian and international electronic records regulations." He continued, "We are very grateful and fortunate to be in a strong position to deliver industry leading consulting to our customer."

DataCeutics, Inc.
