### **DataCeutics Expands Its Support Services for Today's Leading Clinical Data Management Systems**

Philadelphia, PA – DataCeutics, Inc., the industry's foremost authority on Clinical System Implementations, today announced the completion of a Validation suite for the Oracle Pharmaceutical Application Suite™ (OPA).

Noting that DataCeutics has implemented Oracle® Clinical and Oracle® TMS for leading pharmaceutical, biotechnology and CRO organizations, CEO and Principal Consultant Matt Ferdock, saw the need to support new and existing clients with a comprehensive documentation suite to validate and maintain the validated state of Oracle® Clinical.

The DataCeutics OPA Suite™ was designed to enable clients to embark upon system installations, validations and upgrades more rapidly; and to reduce the strain on internal and external resources. The suite complements the services DataCeutics provides for setting up the validation environment, executing the UATs and drafting the supporting documentation and includes:

- DataCeutics Oracle Clinical CORE UATs™
  - D-Core™ for Oracle® Clinical v4.5
  - D-TMS™ for Oracle® Thesaurus Management System v4.5
  - D-RDC™ for Oracle® Remote Data Capture v4.5
  - D-AERS™ for Oracle® Adverse Event Reporting System v4.5
- DataCeutics Oracle Clinical CORE Validation Documents
  - D-URS™ (User Requirement Specifications)
  - D-TRACE™ (Oracle Clinical Traceability Matrix)
- DataCeutics Oracle Clinical CORE SOPs™
- DataCeutics Oracle Clinical CORE Training

DataCeutics, Inc.

#### ***The Leader in Clinical Information Technology***

DataCeutics, Inc. is the leading clinical technology organization focused on the life sciences industry. Our entire business focus is on providing clinical information technology services and products for the clinical research environment. DataCeutics has supported the pharmaceutical, biotechnology and CRO industries with high quality services and innovative software solutions for over 12 years. IT service solutions for the data management and clinical reporting systems range from system selection to implementation, validation and production support. DataCeutics' leading reporting products are the CR Toolkit™, the Clinical Reporting Solution™, and DataCeutics Report Portal™.
